[LeetCode](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Passionate about mastering core engineering fundamentals and becoming a software engineer. Committed to continuous learning and solving real-world problems using modern tools and technologies.

EDUCATION

- Ideal Institute of Engineering , MAKAUT University** (Expected July 2027)
BTech in Electronics and Communication Engineering Currently Pursuing
- JIS School of Polytechnic** (Aug 2020– Aug 2023)
Diploma in Electronics and Tele-Communication Engineering CGPA : 8.08 / 10.00

TECHNICAL SKILLS

- Languages :** C++, Java, Python, SQL
- Frameworks & Tools :** Spring Basic, Spring Boot, MySQL, MSSQL, Maven, Git, IntelliJ IDEA, VS Code
- Core Concepts :** OOP, DBMS, System Design Basic
- DSA :** LeetCode

PROJECTS

Multi-level Parking Lot System (Low-Level Design using OOP) | [LINK](#) | Java, OOP, MySQL

- Built a concurrent multi-level parking system supporting multiple vehicle types and entry/exit gates using Java OOP.
- Implemented real-time slot tracking, hourly billing, and scalable floor management.
- Applied LLD principles and thread-safe structures to handle concurrent operations efficiently.

Spring WebSocket Chat Application | [LINK](#) | Java, Spring Boot, WebSocket, STOMP

- Built a real-time chat application using Spring Boot and WebSocket with STOMP for instant messaging between multiple users.
- Implemented join/leave notifications and live message broadcasting with a simple, responsive UI, demonstrating event-driven communication and backend integration.

CyberWatch - AI Threat Hunting Dashboard | [LINK](#) | Streamlit, Python, TensorFlow, APIs

- Created real-time cybersecurity monitoring dashboard with AI-powered threat explanations and attack visualization
- Improved threat detection accuracy by 40% through integration of live attack feeds and geographic mapping
- Implemented automated IP intelligence lookup system processing 10,000+ security events daily

PROFESSIONAL EXPOSURE

Software Engineering Job Simulation – Wells Fargo | [LINK](#) |

Gained hands-on exposure to real-world software engineering workflows, including code review practices, backend development tasks, and professional engineering best practices used in the financial technology industry.

CERTIFICATES

- Fundamentals of Java Programming [CERTIFICATE](#)
- Complete Git [CERTIFICATE](#)
- Parallel, Concurrent, and Distributed Programming in Java [CERTIFICATE](#)
